

× CULTURE PALACE OF PIZZA ×

My story begins in the year of 2012, when i decided to re-define the very idea of Pizza.

Not another regular and boring pizza, but something entirely new. I wanted to make you forget everything you know about Pizza.

So I've traveld, and checked, tasted and experienced- until I've decided. I returned to Israel and started to think about new recipes and special toppings

That's how Caldo was born- an Art pizza bar

In fact, I'm here for the same reason you are- looking for the special and the unusual, both in Pizza and in life.

Therefore, our menu offers about 70 different kinds of pizza- meat, fish, sea food, vegetarian and vegan, which expands the regular world of toppings and surprises our sense of taste.

You can also find starters, sea food, special dishes and deserts on our menu-

all dishes are hand made with high quality materials and only after you order. No dish is pre-made!

We invite you to seat back and open your heart as well as your stomach.

Bon apetit!

The trouble with eating Italian food
is that five or six days later you're
hungry again.
